Earth Day

What can you find out about the history of Earth Day? What did people do at the first one in 1970? How has it changed? What do people do now?

What can you find out about the Sustainable Development Goals? Who decided what they should be? Which ones do you think are the most important?

You could use the internet to research or any books you have available.

Why not design a poster with what you find out?

Or make a photo slideshow to show someone else in your family?
